

**THE KEURIG® B155:** There's a lot to like about the B155, one of our most feature-packed brewers designed for offices in the small-to-medium size range.

**TOUCH AND GO: TOUCHSCREEN INTERFACE**

Thanks to an advanced full color touchscreen interface — with adjustable brew temperature, programmable on/off settings and auto-off feature — you can walk through brewing instructions, step by step, in three different user-selected languages.

**HAVE YOUR FILL: POUR-OVER WATER RESERVOIR**

The easy-to-fill, removable, water reservoir — our largest at 90 ounces — means you can fill once and make up to 18 cups of coffee. Plus, the brewer does not need to be located close to a water supply.

**SATISFY EVERY TASTE: FOUR BREW SIZES**

Choose from four different brew strengths — 4 oz., 6 oz., 8 oz. and 10 oz. From espresso-like drinks to milder brewed beverages. Because tastes differ.

**REMOVE AND FILL: REMOVABLE DRIP TRAY FOR EASY TRAVEL MUG USE**

The drip tray is designed for easy cleanup and versatility. It slides out of the way to accommodate travel mugs. Plus, it's dishwasher safe.

**HARD WORKER: COMMERCIAL GRADE**

This brewer is a rugged machine, built to commercial specifications and UL-approved for home and commercial use.

**DRAIN AND STORE: DRAINABLE INTERNAL HOT WATER TANK**

You can't get this from a home brewer. Only Keurig commercial brewers offer the option to easily drain and remove water from the hot water tank for transport and storage.

**KEURIG® COMMERCIAL BREWERS**
